Lockdown® MH Panel Security Ceiling System

Gordon Lockdown® MH Panel Security Ceiling is a tamper evident, grid based ceiling system utilized in supervised security environments within psychiatric facilities. Our Durable, Antimicrobial, AAMA certified powder coatING finishes offer infection control, occupant safety and maintainability while the Therapeutic color offerings help create a warm, comfortable space for patients, visitors and healthcare workers.

Lockdown® MH Panel Security Ceiling Panels:

- 18 GA. 24” x 24” galvanized steel “lockdown” panels and manufacturer’s perimeter channel with 24 GA z-hold down.
- Perforated or Non-Perforated
- Grid system comprised of main tees at 12’-0” with cross tees at 4’-0” and 2’-0”
- NRC 0.80 and higher when integrated with Gordon’s CMA Acoustical Pads
- Security Light and HVAC Integration
- Access door options include hinged door and 2’ x 2’ access door surface mounted to grid with tamper resistant screws. Access panels in lieu of access doors are available and fastened with tamper resistant screws.
